

Identify The Programming Language

Team Name:

```
#include <stdio.h>
int main()
{
    printf("hello, world");
    return 0;
}
```

1:

```
program HelloWorld;

begin
    writeln('Hello World');
end.
```

4:

```
SELECT 'Hello World!';
```

2:

```
-mod(hello).
-export([start/0]).

start() ->
    io:format("Hello, World!").
```

5:

```
with TextIO;
use TextIO;
procedure HelloWorld is
begin
    put_line("Hello World");
end HelloWorld;
```

3:

```
IDENTIFICATION DIVISION.
PROGRAM-ID. HELLO-WORLD.
PROCEDURE DIVISION.
    DISPLAY 'Hello, world'.
STOP RUN.
```
